This is to certify that the level of HUD financial assistance which would otherwise be available for projects in that portion of the State within the Appalachian Region will not be diminished in order to substitute ARC funding.

For special basic grants this is to certify that no HUD funds are available for the project within the current fiscal year allocation and priorities, nor is there any likelihood that funds will become available in the near future.

This is to further certify the State is willing to administer the ARC grant consistent with laws and regulations governing the use of Title I funds and other conditions agreed to by HUD and ARC. Upon completion of the project, the State CDBG Director will provide a final financial report that includes the actual total eligible project costs as certified to by the grantee to be correct and in accordance with the grant conditions and other agreements. The final financial report will provide the final eligible project cost, the final amount of CDBG, ARC, State and local funds obligated to the project cost. If the total cost of the project is reduced and reflected in the final financial report, the reduction shall be credited to ARC's account in accordance with ARC regulations and ARC shall be notified of the action.
